Experience

Niantic, Inc., Associate UX Designer

Dec 2020 - Present, San Francisco, CA

Using AR to inspire exploration, exercise, and meaningful social interaction.

- Working with the Pokémon GO team to provide innovative and engaging ways to alleviate the daily needs and pain points from current, new, and reengaging players.
- Collaborating with the UX design team, engineers, and product managers to align on strategy and improve consistency across the product.

Treehouse, Design Student Moderator

Feb 2020 - Dec 2020, San Francisco, CA

Ed-tech platform to help bridge the gap between the learner & employer.

- Provided guidance on projects & answered questions related to design & career to over 200 students as a student designer moderator — as a result, increasing community engagement.

81cents, Head of Design

Jun 2019 - Dec 2020, Berkeley, CA

Negotiation support, just for women & underrepresented groups.

- Identified usability problems in the check-out experience from 10 conducted user interviews & competitor analysis, & redesigned user flow to decrease cart abandonment by 13%.
- Redesigned new assets & layouts for the site (www.81cents.com) to increase brand & mission awareness, & to enable seamless user flows.
- Revised current product & slide decks to better illustrate & synthesize data & information to over 200 clients & stakeholders.
