Experience

Niantic Inc / UX Design Apprentice
Feb 2020 - Present, San Francisco, CA

Trained through Treehouse Techdegree, learning the foundational concepts of UX Design and applying them to impactful projects. Current Student Developer/Designer Moderator, answering questions & providing guidance to over 100 students.

81cents / Head of Design
Jun 2019 - Present, Berkeley, CA

Revised client reports & slide decks to better illustrate & synthesize data & information to over 200 clients & stakeholders. Identified the current usability problems through user research & explored alternative user flows to enhance the customer check-out experience on the site (www.81cents.com).

Aaspire / UX/UI Intern
Mar - May 2020, San Francisco, CA

Developed web application screens & additional features, aimed to provide quality & vetted content to help individuals achieve their self-improvement & learning goals. Lead weekly presentations with the engineering team to go over the design roadmap & ideation of new features & screens to ensure a streamlined process.
